Address:

American Canyon

Price:

700.00 \$

New condition and barely used, comes in the original box, and is still within warranty period.

(Worry not, it has an ESD cover, just shown without it for the images!)

Price is firm, but I'm perfectly willing to negotiate within reason.

Missing a couple accessories, but still comes with the auxiliary power connector and stereo connector bracket. Other items not really necessary- drivers can be installed via connection to NVIDIA's website after physically installing the card in the system.

Quadro is NVIDIA's professional workstation GPU card lineup.

I'm ok with meeting up in Napa or surrounding counties.
